

Mohamed Amine BAYAR, PHD Biostatistician | 13+ years of experience in clinical research

 Tunisian & French  Greater Paris, France  +33668810709  e-mail contact  LinkedIn profile  List of publications

PROFILE

- PhD-trained biostatistician with 13+ years of experience in Phase I–II–III clinical trial design, protocol development, and advanced methodology within academia and the pharmaceutical industry.
- Extensive expertise in scientific evaluation of research protocols, sample size determination, adaptive and Bayesian designs, and application of the Estimand framework including personalized medicine and genomic studies.
- Experienced in providing structured methodological feedback, drafting statistical analysis plans, responding to regulatory authority queries, and contributing to ethics committee submissions.

CORE SCIENTIFIC REVIEW EXPERTISE

- Development of 10+ protocols and analysis plans (SAPs) with application of the ICH E9(R1) Estimand framework.
- Sample size/power calculation including for adaptive/group sequential designs with sample size or events re-estimation.
- Interaction with health authorities such as Briefing books and responses to queries.
- Annual Good Clinical Practice (GCP) trainings as required by health authorities .

WORK EXPERIENCE

Feb 2023 - Mar 2026
3 years & 2 months

Johnson&Johnson

Statistician in clinical trials for Multiple Myeloma, JOHNSON & JOHNSON, Paris, FR

- Lead study design and methodological development for Phase I-II-III clinical trials.
- Support protocol development, including endpoint and Estimand specification.
- Lead the development of analysis plans and ensure alignment with protocols.
- Prepare responses to health authority queries and regulatory briefing materials.

Nov 2019 - Jan 2023
3 years 3 months

Statistician in clinical trials for Chronic Myeloid Leukemia, NOVARTIS, Paris, FR

- Lead the study design, analysis and reporting for Phase Ib & II clinical trials.
- Contribute to protocols, Case Report Forms (CRF), Tables Figures Listings (TFL) shells, Clinical Study Report (CSR), Summary of Clinical Safety (SCS), Summary of Clinical Efficacy (SCE), Investigator Brochure (IB), and correspondence with Health authorities.

Mar 2013 - Oct 2019
6 years 9 months

Statistician in clinical trials for Solid Tumors, GUSTAVE ROUSSY CANCER CENTER, Paris, FR

- Extensive experience with precision medicine trials, biomarkers, and genomics.
- 10+ prognostic studies with observational and longitudinal data on different tumors.
- 15+ Publications in peer-reviewed journals (Annals of Oncology, JCO, CCR, etc.).
- 10+ Oral and poster presentations at reference congresses (ASCO, ESMO, AACR, etc.).
- Serve as coach of students, junior statisticians, and clinicians.
- Attract several grants from the annual french program of clinical research funding.

VOLUNTEERING & INTERNATIONAL ENGAGEMENT

Sep 2025 - 10h/week
for 12 weeks

Online United Nations Volunteers (UNV), UNDESA, USA

- Conducted quantitative analysis on the use of data in Voluntary National Review (VNR) reports (2016–2024) related to the Sustainable Development Goals (SDGs).
- Assessed patterns, reporting structures, and data utilization practices across national submissions.
- Completed 12-week assignment (10 hours/week) recognized by UNV with Certificate of Appreciation.

INTELLECTUAL PROPERTY & INNOVATION

Patent on building and validating a genomic signature by selecting genes expression using Machine Learning technics to predict patients prognosis in Triple Negative Breast Cancer [\[Link\]](#).

Oct 2016 - Nov 2019
3 years 1 months

PhD in Public Health - Major Biostatistics, PARIS SACLAY UNIVERSITY, Paris, FR

- Topic : Long-term evaluation of randomized phase III clinical trials in oncology with rare diseases and biomarker-based subtypes. Manuscript available upon request.
- Extensive methodology work on group sequential/adaptive platform designs.
- 3 Publications in highly-ranked peer-reviewed journals ([Statistics in Medicine](#), [Statistical Methods in Medical Research](#), [Computer Methods and Programs in Biomedicine](#)).
- Teaching public health to clinicians, and undergraduates at Paris Sud University.

Sep 2010 - Jun 2013
2 years 10 months

Engineer in Statistics, ÉCOLE SUPÉRIEURE DE LA STATISTIQUE - UNIV. CARTHAGE, Tunis, TN
Diplôme National d'Ingénieur - Statistique et Analyse de l'Information

- A broad set of statistical techniques : Probabilistic theory, Descriptive statistics, Data-mining (PCA, CA, Clustering, etc.) Hypothesis testing, Stochastic process, Time series, Bayesian methods, Operation research, Simulation methods, Neural network.

Sep 2012 - Oct 2013
1 years 1 months

MSc in Life science, ÉCOLE NATIONALE D'INGÉNIEURS DE TUNIS - UNIV. EL MANAR, Tunis, TN
Diplôme National de Mastère de Recherche - Traitement de l'Info. et Complexité du Vivant

- Advanced statistical techniques : Stochastic process, Information theory, Epidemiology, Design of experiments.

CERTIFICATIONS

Issued Sep. 2021

International Organizations Management, [Link to verify](#)

an online course authorized by University of Geneva and offered through Coursera

Issued Dec. 2021

Initiating and Planning Projects, [Link to verify](#)

an online course authorized by University of California, Irvine and offered through Coursera

LANGUAGES

Arabic Native or bilingual proficiency
French Native or bilingual proficiency
English Full professional proficiency

SOFTWARE

Design East, ADDPLAN, FACTS, rpact (R), gsDesign (R)
Analysis tidyverse (R), RShiny, ggplot (R), RMarkdown
Other Python (working knowledge), SAS (IML), SQL, LaTeX
